## *Meet the Dedicated and Professional Field Crew of the Stratmoor Hills Water and Sanitation Districts.*

In April of 2023, the Board of Directors approved new uniforms for the Stratmoor Hills Field Crew. These new uniforms provide a more professional appearance and will allow the community to easily recognize our staff. This team of professional operators work diligently on the entire

infrastructure for both the Water and Sanitation Districts. This dedicated team works in all kinds of working conditions and weather elements. They truly believe in the District's missions to provide safe, clean, reliable drinking water, and making sure the sewer collection system stays operational. If you have the opportunity to meet with any of our operators, please say hi and thank them for their continuous dedication serving the communities for Stratmoor Hills and Stratmoor Valley.

Reminder: Autopay is always an option and available to all our customers.

### **Don't Flush Your Disposable Wipes**

Disposable wipes — used for changing diapers, personal hygiene, housecleaning, and more — cause major problems when flushed down toilets. Because they don't break down the way toilet paper does, these wipes clog homeowner and municipal sewer pipes, put stress on community wastewater collection and treatment equipment, and cause cities to spend thousands on premature equipment repair and replacement. Wipes snag on any imperfection in sewer pipes, catch passing debris and grease, and create a "ball" that will grow to plug the pipe. They also get drawn into sewer-line and wastewater treatment plant pumps and clog and damage them. Municipalities must manually clear out pumps or remove clogs
